**MOVES!**

**Partners, Funding and Ideas  
for Space-enabled  
Transport and Mobility Services**

**Berlin**  
18-19 Sept 2017

Space Moves! is an event jointly organised by the Space Administration of the German Aerospace Centre (DLR) and the European Space Agency (ESA) to promote space-enabled services with a major focus on transport and mobility.

## TRANSPORT AND MOBILITY

Transport and mobility areas addressed at the event include

- Automotive & Road
- Aviation
- Maritime
- Railway
- Logistics
- Infrastructure
- Urban Mobility
- Enabling Technologies

### Added Value of Space

Your commercial services could greatly benefit from capabilities like global and robust communication, positioning, precision timing, geo-information, remote control or technology for harsh environments.

Space assets, such as satellite communication, satellite navigation, Earth observation or human spaceflight can enable these capabilities.

## WHAT WE OFFER

### Transport & Mobility Talks

Learn about challenges, opportunities and successful space-enabled services on land, at sea and in air

### Application Showcases

Get inspired by demonstrations of successful mobility and transport services enabled by space

### Network & Partnership Building

Meet business and technical experts, entrepreneurs, decision makers and investors

### Funding & Support Opportunities

Learn about opportunities to fund and support your business ideas and discuss the possibilities with relevant stakeholders

### Business Idea Competition

Do you have a promising business idea that benefits from satellite navigation, Earth observation, satellite communication or other space assets?

Submit it via [business.esa.int/spacemoves](https://business.esa.int/spacemoves) and win attractive prizes!

## REGISTER NOW!

 18-19 September 2017

 Humboldt Carré, Berlin

Register on [business.esa.int/spacemoves!](https://business.esa.int/spacemoves!)

### About Us

Acting on behalf of the Federal Government, **DLR Space Administration** designs and implements Germany's Space Programme, which integrates all German space activities on the national and European plane.

The **European Space Agency** is Europe's gateway to space. Its *Business Applications* programmes are dedicated to the development, implementation and pilot operations of space-enabled applications that will lead to innovative, sustainable services.
